

Graduating Seniors: Physics

The Career Center, in conjunction with the Division of Student Affairs and Institutional Research, has administered a survey to graduating seniors for over a decade, asking students about their post-college plans and their overall FSU experience. Of all the Department of Physics graduates from Summer 2013, Fall 2013, and Spring 2014, 23 graduates participated (85%). The data presented in this report are based on responses to the Graduating Senior Survey at the point of graduation with data on employment and continuing education outcomes updated for graduates who responded to the six-month follow-up survey.

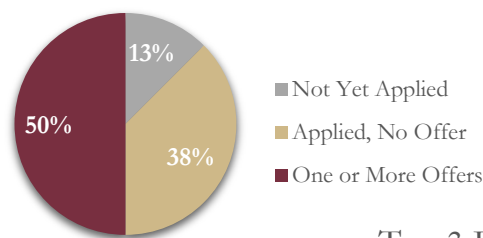

Physics Post-Graduation Plans

Data indicate that over one-third of Physics graduates are seeking employment after graduation, and over one-third are pursuing further education.

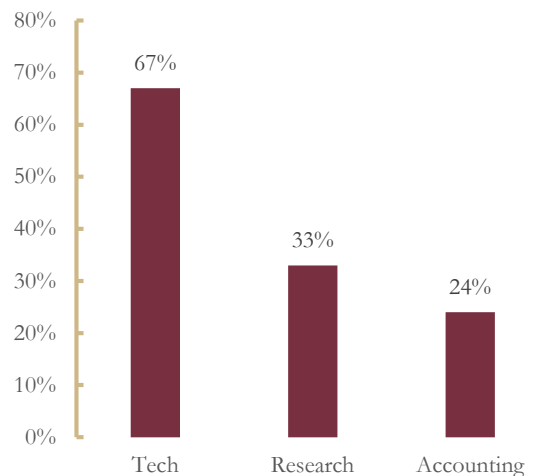

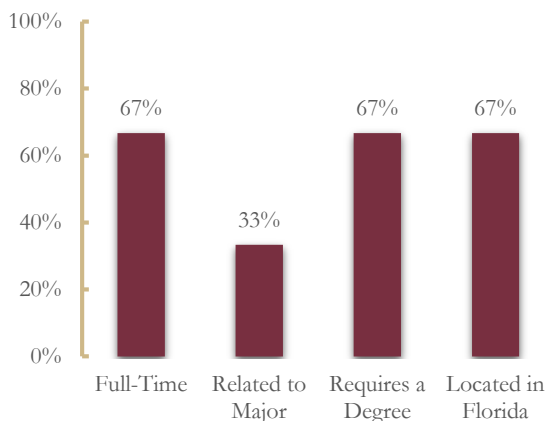

Physics Post-Graduation Employment

Half of graduates whose primary plan was employment received at least one offer of employment and are employed in a wide variety of industries. Also, Physics graduates most frequently found jobs that were full-time, required a degree, and were located in Florida.

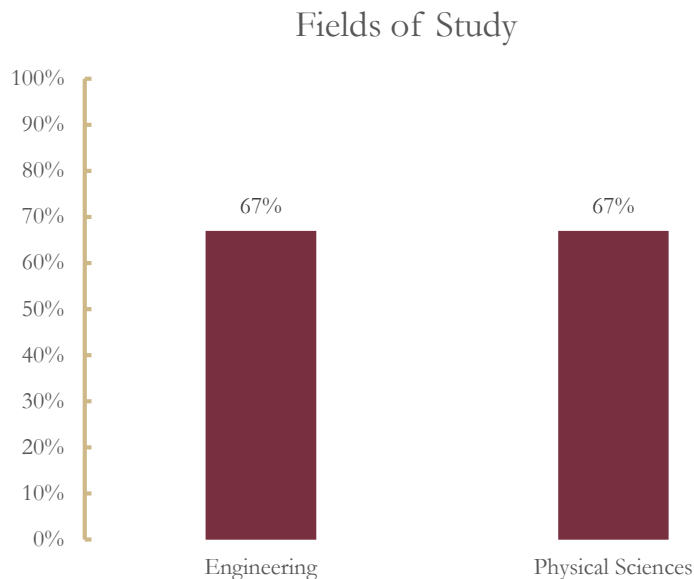

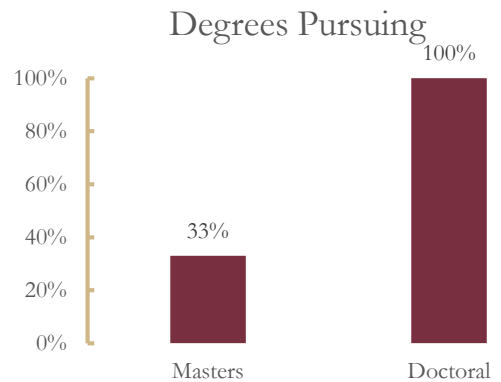

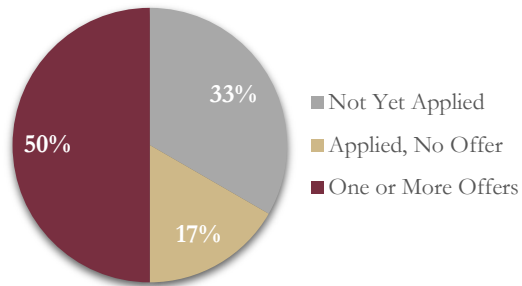

Top 3 Employment Industries

Physics Post-Graduation Education

Half of graduates whose primary plan was to continue their education in Spring 2014 received at least one offer of acceptance at a college or university and are studying in a wide variety of fields.
